

SARK EPC
PROJECTS PVT. LTD.
(Cathodic Protection Services)

Today, Tomorrow & Forever

Established in 2011, SARK EPC Projects Pvt. Ltd. was born with a vision to deliver unparalleled and prompt quality services in the field of Cathodic Protection Systems. We have risen to become one of India's leading companies in this domain, and our business and services have now extended to the international market.

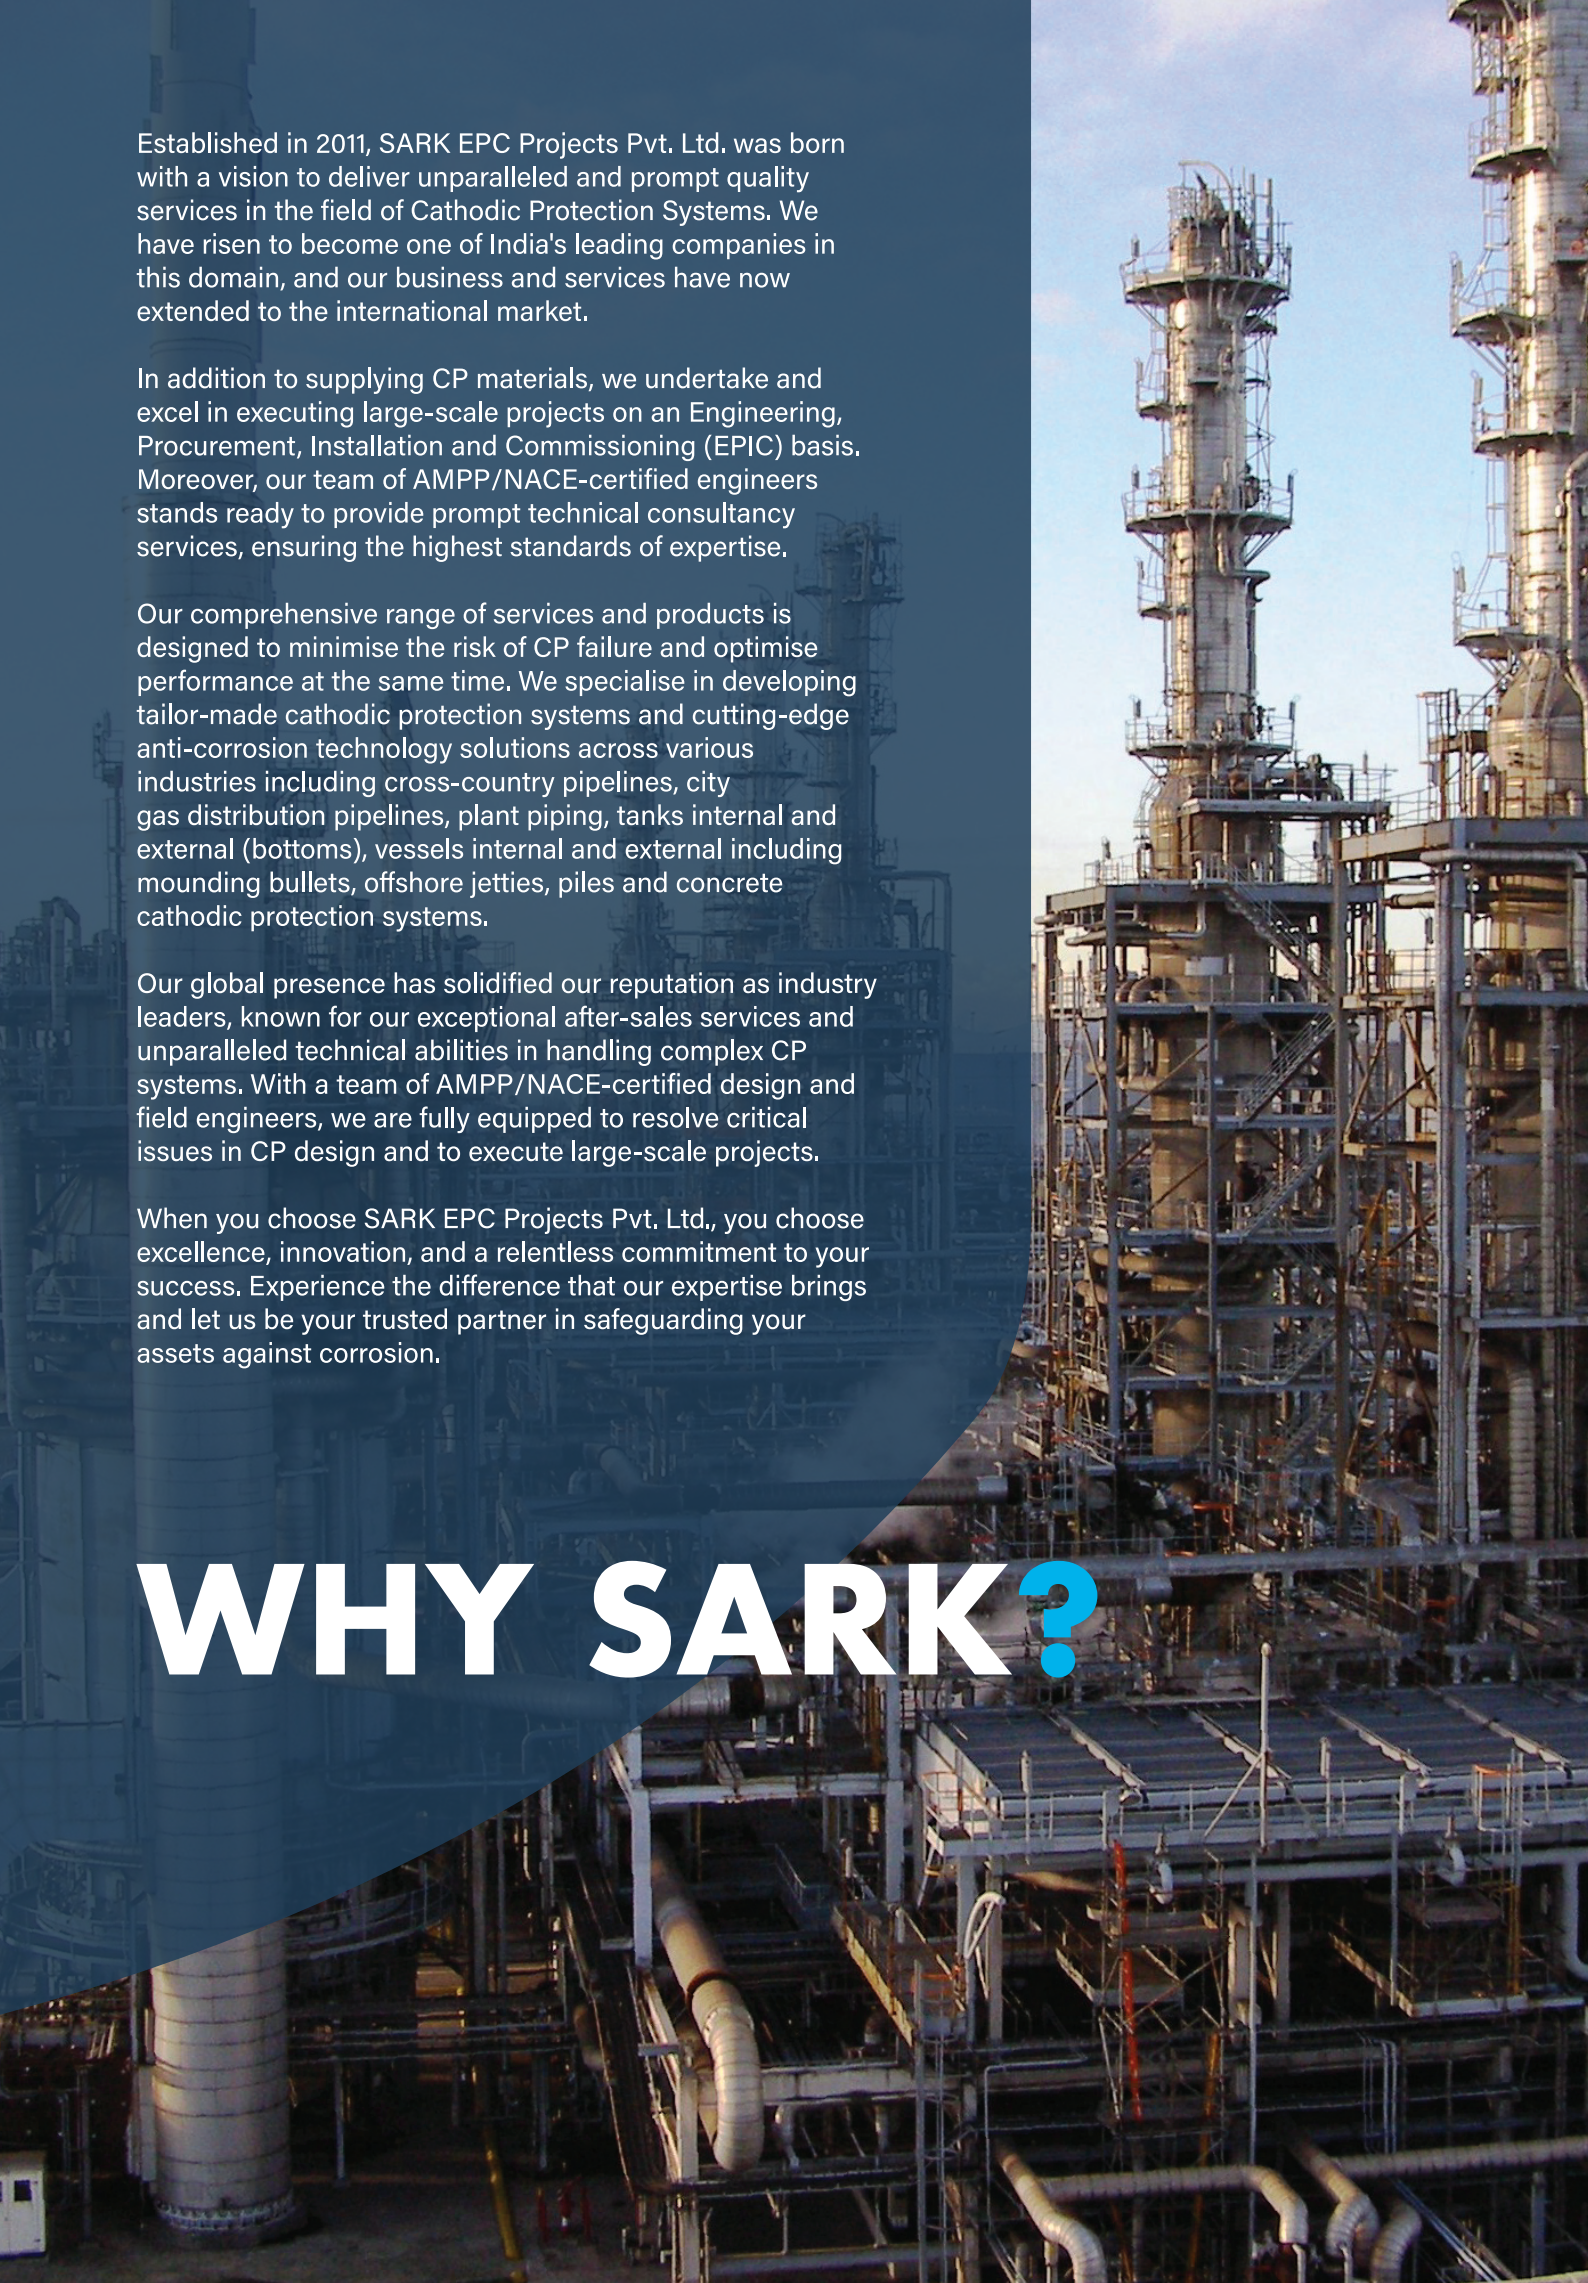

In addition to supplying CP materials, we undertake and excel in executing large-scale projects on an Engineering, Procurement, Installation and Commissioning (EPIC) basis. Moreover, our team of AMPP/NACE-certified engineers stands ready to provide prompt technical consultancy services, ensuring the highest standards of expertise.

Our comprehensive range of services and products is designed to minimise the risk of CP failure and optimise performance at the same time. We specialise in developing tailor-made cathodic protection systems and cutting-edge anti-corrosion technology solutions across various industries including cross-country pipelines, city gas distribution pipelines, plant piping, tanks internal and external (bottoms), vessels internal and external including mounding bullets, offshore jetties, piles and concrete cathodic protection systems.

Our global presence has solidified our reputation as industry leaders, known for our exceptional after-sales services and unparalleled technical abilities in handling complex CP systems. With a team of AMPP/NACE-certified design and field engineers, we are fully equipped to resolve critical issues in CP design and to execute large-scale projects.

When you choose SARK EPC Projects Pvt. Ltd., you choose excellence, innovation, and a relentless commitment to your success. Experience the difference that our expertise brings and let us be your trusted partner in safeguarding your assets against corrosion.

WHY SARK?

RANGE OF CORROSION PREVENTION SOLUTIONS & SERVICES (WORLDWIDE)

CATHODIC PROTECTION SYSTEM SERVICES

We provide complete range of services right from field survey, design and engineering, materials supply, site erection of CP system, testing and commissioning, and monitoring and maintenance of the CP system.

- Cross Country Pipelines
- Plants (Hydrocarbon Plant, Fertiliser Plant, Power Plant & Water Processing Plant)
- Tank Bottom External / Tank Internals
- Vessels / Bullets / Offshore (Platforms & Pipelines)
- Well Casings / Marine Jetties / Concrete Structures

OTHER SPECIALISED SERVICES

We have a dedicated team of AMPP/NACE Certified Corrosion Specialists, Cathodic Protection Specialists, and Cathodic Protection Technicians, to provide a specialised wide range of services like:

- Cathodic Protection System Consultancy
- Close Interval Potential Logging (CIPL)
- Direct Current Voltage Gradient (DCVG)
- External Corrosion Direct Assessment (ECDA)
- Internal Corrosion Direct Assessment (ICDA)
- Offshore Pipelines Corrosion Surveys

SOFTWARE BASED SIMULATION AND MITIGATION SERVICES

We undertake jobs for 3D software modelling on various cathodic protection designs for pipelines, vessels, jetties, concrete piles and offshore structures.

- AC Interference and Mitigation Design
- DC Interference and Mitigation Design
- HVDC Interference and Mitigation Design
- Solar Interference and Mitigation Design
- Traction/Transit System Interference & Mitigation
- Authorised Software Licence of ELSYCA and BEASY

OUR GROUP COMPANY

ABOUT ZAKCO

Zuluf Al Khaleej Contracting Company LTD. (ZAKCO) was established in 2011 having aim of becoming market leader in the Cathodic Protection industries. Over the years, the company has evolved into specialized CP company and awarded by ISO 9001:2015, ISO 45001:2018, ISO 14001:2015.

ZAKCO has well established facility in Dammam, KSA, consists of 5,000 Square Meter Yard along with the state of the art office. ZAKCO has successful track records since its establishment in the year 2011 and presently employs more than 90 direct staff including NACE/AMPP certified engineers/ professionals. Our own heavy equipment and drilling rigs along with highly experienced project delivery team have demonstrated as backbone of our success so far.

ZAKCO is specialised in providing EPC services within the cathodic protection industries in sectors like Cross Country Pipelines, Plant Piping, Storage Tanks, Concrete Structures, Oil & Gas Wells, Water Wells, Offshore Structures etc. We follow QA, HSE, risk assessment, continuous improvement and sustainability protocols and processes to deliver excellence to our clients. We build long-term relationships with our clients, focusing on bringing every assignment to a successful completion, on time and to budget. ZAKCO is committed to provide the services to the reputed companies in Kingdom such as SAUDI ARAMCO, SABIC, SCECO, KJO, ROYAL COMMISSION etc.
